QUALITY SAMPLE PROCESSING

Products are widely used in automotive, home appliances, rail transportation, charging pile, new energy and other industries

PRODUCT PARAMETERS

Equipment Model	TR-401
Operating Mode	Touch screen, foot pedal
Operating Mode	Full entanglement, point entanglement, multi-segment entanglement
Power Supply	AC110V~AC220V
Winding length	infinitely long
Winding wire diameter	3-40mm
Tape Material	PVC, acetate tape (without isolation paper), flannel, etc.
Winding Maximum Efficiency	12R/S
Tape Specifications	Inside ϕ 38mm, outside $\leq \phi$ 140mm, width \leq 20mm (if there are other tape size, can be customized according to the requirements of the tape fixing frame)
Pneumatic	\geq 4P

OUR ADVANTAGES

Good products to tell you in detail

01

TOUCHSCREEN

HD touch screen, intelligent system,
easy to operate

02

WINDING DEVICE

Winding according to different wire
diameters. Automatic winding,
high speed and high efficiency
Uniform force for tighter winding

03

PULLEY BLOCK

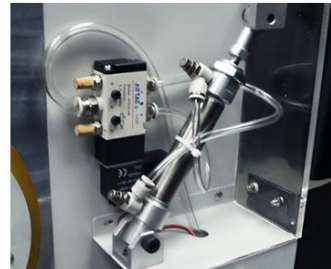

Automatic alignment, even winding
No need for manual pulling

04

PRECISION CYLINDER

Precision quality aluminum alloy cylinder
High strength, no deformation,
no air leakage ,durable

ABOUT ME

I have been engaged in **automation machinery industry** for **8 year** and served over **200 customers**. As the company's senior sales, I have been enthusiastic and improving the services for my customers from all over the world by **offering the best resources for pricing, Industry information, product knowledge, cost-effective products and high-quality services and guarantee the production lead time.**

with my personal experience in automatic machine industry, I can always provide very professional instruction and suggestion for 24 hours services, market demand and free making samples to my customers.

WHY CHOOSE US

- 15+ years automatic machine OEM/ODM experience ;
- owned 2 factories, capacity over 2000 sets/month for small equipment ; 1000 sets/month for big equipment .
- 350 workers, 19 production lines , guarantee the delivery time .
- 35 patented technologies ;
- 15 R&D , Customized production line project acceptable ;
- 7*24 hours online service, prompt response within 5 minutes ;
- CE certification +ISO 9001:2015
- 100% quality control and inspection
